

A FAST, FAIR & OPEN APPROACH

Repair, Restore & Remodel by InteriorWorx is a national, turn-key solution for all of your general contracting needs. We specialize in home improvements and repair services designed to improve a property's marketability. We've repaired and restored more than 20,000 homes, and our lead team has 100 years of experience in construction alone.

Whether your home needs new paint and flooring, or larger renovations like new cabinets, countertops, and appliances, our field teams work hard to improve your space quickly, so you can get your property back on the market fast. From large-scale projects like multi-unit apartment buildings to single-family homes, we take distressed and run-down properties and make them new again.

We work closely with financial institutions, large property owners, and real estate agents, providing them with specialized services that focus on upgrading distressed residential properties. As a licensed and insured general contractor, Repair, Restore & Remodel works with our field partners to install new flooring, lighting, cabinets, appliances, and more. Our one-stop program helps clients transform their property portfolios to meet minimum standards, making them new and ready to be sold quickly at market prices.

WE BRING IT ALL TOGETHER

Whether your project calls for flooring, paint, appliances, cabinets, lighting, or all of the above, we'll put together a remodeling package using professional tradesman and respected brand-name products including these core partners:
